

Save My Life

[ZZ Ward](#)

You leave a trail of my broken tears, empty words for me to follow
Broadway and dark is where you left my heart love is cursed in a bottle
Now I can't get up now I can't get down with all the games that you play
You shut me up and you shut me out, it's all the same nothing's changed
Got me on the ledge where you keep
me waiting standing on the edge and I'm begging, begging
I can't read your mind won't you help me draw the line
Save my life set me free these lonely nights are haunting
me
Cut me out from the cold this young heart is getting old
Save my life set me free a yes or no is all I need
You don't want me darlin, let me know, just say goodbye and I'll go
You're taking more then you even need
seeing you just keeps me hollow
Wach the minutes stare they pass me by, watch the hours flare push the throttle
Got me on the ledge where you
keep me waiting standing on the edge and I'm begging, begging
I can't read your mind won't you help me draw the line
Save my life set me free these lonely nights are haunting
me
Cut me out from the cold this young heart is getting old
Save my life set me free a yes or no is all I need
You don't want me darlin, let me know, just say goodbye and I'll go
Hold on to me, I try to fight it
Hold on to me, it just ain't right
Hold on to you, make up your mind
Hold on to you, I ain't got time
Save my life set me free these lonely nights are haunting me
Cut me out from the cold this young heart is getting old
Save my life set me free a yes or no is all I need
You don't want me darlin, let me know, just say goodbye and I'll go
