

This Ain't the Way (feat. Tori Kelly)

Jeremy Passion

Verse 1:

Stepped off the peak of a good time
Right back to the valley of a bad rhyme
All these ups and downs, can we turn around
And stay high
High above the sky and fly ? But gravity...
Sometimes it feels good
Sometimes it don't
Then at times, it's visible
Sometimes less shown
Gotta work this out no other way around
We're both grown
You and I, baby you and I
Chorus:
Darlin' take my hand
Realize we're on the same team
Try to understand that I'm not your enemy
Let's work it out
Give and take or
Agree to disagree cuz

This ain't the way love supposed to be Verse 2:

Just the other day, we were doin' fine
Even on a rainy day we had sunshine
But just like a hat, you snapped back
You changed your mind
Ooo boy, tell me why we gotta do this all the time?
You say I got alot of fire? Well you're cold as ice
If people only knew that you are not always nice
Bite your tongue, and watch your tone
Think before you speak cuz

You gotta know what this woman needs (Chorus) Bridge:

It ain't hard to see we need a change
Cuz we know our love is not the same
Baby, this ain't a riddle
Gotta meet in the middle
This time
