Electric Kingdom

WestBam

Huh, deep in the city people live in the streets
You got to be careful of everyone you meet
There's lootin' and shootin', people stabbin' and grabbin'
The innocent by stander, the police are grabbin'Ain't it a pity 'cause you hate the city
But the way you feel ain't no big deal
You've got to survive and that the real nitty gritty
You go uptown, downtown, you've got to turn your life aroundBack in the jungle a man is free
Free from the street, from captivity
Break out, break in, it doesn't matter where you've been
Snake pit, lion's den, you need someone to be your friendCome to Electric Kingdom
Truck to Electric Kingdom
Come to Electric Kingdom
Truck to Electric KingdomElectric
Electric
Electric
ElectricGive it to me, give it to me
(Give it to me, give it to me)
Give it any way you play
(Give it)Sign in on the one, huh
Get up, get up, be on your way
On the one, huhElectric KingdomWho you talkin' to?
Who youGive it, take it
Give it, take itElectric KingdomWho you talkin' to?

Truck to Electric Kingdom
Come to Electric Kingdom

But the way you feel ain't no big deal
You've got to survive and that the real nitty gritty
