Terrible Things

April Smith

If you dig under my feet
You will find things that you don't want to see
Things that i hide we've done inside
A menagerie of the tragedy that i have caused and all of my flawsAnd my demons are all if you see
Then what would you do ...if you only knew[chorus]
All of the things that I've done
Terrible things...you would never believe
Things that I've done
Oh how you'll run
If you knew a single one
All of the things that I've doneOh my face give me a way
I know it won't
Cause I don't even feel
I just reflect what you expect
So you don't suspect that...
I could be exactly who i am[chorus]I know that I'm afflicted
But who could have predicted
That monster that I've become
I keep things carefully covered
So no one will discover
That I could be the culprit
I'm sorry I can't help it[chorus]
