April Fool

Manchester Orchestra

I was born an April fool
Full of gold to a brothelAnd saved all my sins!I don't care if you and I are naked bare
And wrapped up in the sun

I'm antichrist in your home

I'll come around this time to lay it sck from my soul Let me goAnd I have time, those blinking lights

Controlled my sight and blinded me in spite

And I waited here for you (here)I don't care, the salvaged prayer

But a dent so big comes once a few years

And again I'm left to wait for youAnd I don't know where I was going

I tried again to break you down for everyone's know

Crying, let me go back to my failures

And come around this time to stop and finally let go

Let me go!(Ooooh oooooh)Leaves are dead but I am here

Waiting on another good year

I hope we don't lose it all hereI tried once, I tried twice and I'm done

I am the once and irreplaceable son

I've got that rock and that roll

I've come around this time to set fire to your boneI tried once, I tried twice, I am done

I am the once now and irreplaceable son

I've got that rock and that roll

I've come around this time to set fire to your homes

And let you go!
