

Sticking Out

Wampire

Give me a little check, how am I looking now?
Am I any better, am I sticking out?
Covered in my own sweat, eyes are bugging out
Take it out just a little bit, think I'm sticking out
How long have we been out tonight?
Feels like we've been out my whole life
I think its starting to wear off
I think that I'm sticking out
How we doin', are we almost out?
No ones looking, I'll take another now
Where we going? Did we figure out?
How much longer? Are we there now?
Wanna flip my eyelids inside out
Wanna hear you scream and shout
