

# Stay

## Carol Banawa

I want you to stay, never go away from me  
Stay forever  
But now, now that you're gone  
All I can do is pray for you  
To be here beside me again Why did you have to leave me  
When you said that love will conquer all?  
Why did you have to leave me  
When you said that dreaming was as good as reality? And now I must move on  
Try to forget all the memories of you and me  
But I can't let go of your love that has taught me  
To hold on
