

# Chemicals

## Diary of Dreams

All this wasted space  
This whole room it takes  
    Hard to stay awake  
    This is my escape  
    If we feel it back up  
    Amphetamine rush  
    Set me on fire tonight, tonight  
    It's getting critical, getting critical  
    I gotta let it go, gotta let it go  
Your my chemical, your my chemical  
    Killer, killer, killer, killer  
    Stabs me in the back  
    Takes me all I have

    Wrestle to the floor  
    See you soon for more  
    If we feel it back up  
    Amphetamine rush  
    Set me on fire tonight, tonight  
    It's getting critical, getting critical  
    I gotta let it go, gotta let it go  
Your my chemical, your my chemical  
    Killer, killer, killer, killer  
    It's getting critical, getting critical  
    I gotta let it go, gotta let it go  
Your my chemical, your my chemical  
    Killer, killer, killer, killer
