What Else Do I Need

Vast

I don't mind that I have come back here again
In a place so far away from normal life
They are racing to a prison, they will never leave
Worshiping a system, I just don't believe
I could stay right here
And never ever leave
What else do I need
I know that you don't like me, that's alright today
I love you but you bore me, don't fuck up my day
'Cause I could stay right here
And never ever leave
What else do I need
I could stay right here
And never ever leave
What else do I need

People worry that I don't do anything
I think they really wonder why I'm not like them
They are racing to a prison, they will never leave
Worshiping a system, I just don't believe
'Cause I could stay right here
And never ever leave
What else do I need
I could stay right here
And never ever leave
What else do I need
What else do I need
What else do I need
Yeah, what else do I need
What else do I need
