

A Life of Arctic Sounds

Modest Mouse

As long as you're gone I can't apologize
For all the things that I haven't said and done
And 100 miles is a long drive inside a car
200 is a long drive inside a car, 300 is a long drive inside a car, 400 is a long drive inside a car, 500 miles is a real
long drive in a car
600 miles is a long drive inside a car, 700 is a long drive inside a car
800 is a long drive inside a car, 900 miles is a long, long, long
Long ways in a car, 1000 miles is a long drive inside a car
1100 miles is too far inside a car I wrote my name on the sun, hey alright
I might be god damned, a life of arctic sounds
Hey alright, I might be god damned, all the sad comedians I wrote my name on the sun, hey alright
I might be god damned, a life of arctic sounds
Hey alright I might be god damned, all the sad comedians
Hey alright, I might be god damned
