

Proving Ground

Widespread Panic

I really wanna move like I'd like to
Sometimes I remember myself
I really wanna feel like I'm supposed to
Sometimes I remember how to feel How did I find myself just this way
My body keeps on moving
But my style gets in my way Find out just how tall I am
By jumping in the middle of a river Well, we were shaking cliches like we used to
You just remember the smell
Breaking my brain like a boy who just
Can't forget her smell Now, how do you like the way I drive
Take us a little bit different way every next time (time) Find out just how dry I am
By jumping the middle of a river Find out just how tall I am
How tall I am I really wanna move like I'd like to
Sometimes I remember myself
I really wanna feel like I'm supposed to
Sometimes I remember how to feel How did I find myself just this way
My body keeps moving
But my thoughts get in the way Find out just how tall I am
By jumping in the middle
