## **Proving Ground**

## **Widespread Panic**

I really wanna move like I'd like to Sometimes I remember myself I really wanna feel like I'm supposed to Sometimes I remember how to feelHow did I find myself just this way My body keeps on moving But my style gets in my wayFind out just how tall I am By jumping in the middle of a riverWell, we were shaking cliches like we used to You just remember the smell Breaking my brain like a boy who just Can't forget her smellNow, how do you like the way I drive Take us a little bit different way every next time (time)Find out just how dry I am By jumping the middle of a riverFind out just how tall I am How tall I amI really wanna move like I'd like to Sometimes I remember myself I really wanna feel like I'm supposed to Sometimes I remember how to feelHow did I find myself just this way My body keeps moving But my thoughts get in the wayFind out just how tall I am By jumping in the middle
