

# More Than Friends

## Romance and Rebellion

Oh no  
How did this happen again?  
When we started out  
We were just friends and now..  
I don't know how  
To negotiate emotions and  
Deal with these feelings I feel...

When I speak,  
It's not the words that I say,  
But ones I don't  
That leave me feeling this way  
If you knew.....how badly  
I just want to kiss you but  
Actions speak louder than words...

When I'm alone with you...  
There's this little voice inside my head,  
That's screaming out,  
To tell you the way that I feel but I don't know how...  
When I'm alone with you...  
I'm gonna show you that these feelings are real,  
The way that I feel,  
And make you understand we're more than....(friends)

Where ever I'll be there for you  
When you call me in the afternoon  
I'm confused I wanna hold your hand  
Just say the words were more than friends...

We kissed  
And everything changed  
Bestfriends,  
Became strangers again  
We'll never be the same I know  
But I'd rather live alone  
Than die in the friend zone!!!!

Where ever I'll be there for you  
When you call me in the afternoon

I'm confused I wanna hold your hand  
Just say the words were more than...(friends)  
Forever and never to part  
I'll be yours baby cross my heart  
Don't leave me hanging tell me where I stand  
Just say the words were more than friends  
(When I'm alone with you....)  
(When I'm alone with you...)

I just think of good it could be  
If you'd only say the words to me  
You never did say we were more than friends  
You grabbed me by the face and kissed me again!

Where ever I'll be there for you  
When you call me in the afternoon  
I'm confused I wanna hold your hand (kissed me again)  
Just say the words were more than...(kissed me again)  
Forever and never to part  
I'll be yours baby cross my heart (kissed me again and again)  
Don't leave me hanging tell me where I stand  
Just say the words were more than friends  
(Forever and never to part..)  
(Forever and never to part...)
