Dance

Dizmas

Todays perfect I feel like movin around
Im gonna kick, kick, kick, kick on in
It's been a long time walking in a straight line
Let's get away, we gotta get away
Ooh, ooh, Im never ready, Im never ready for thisDance when you're feelin the move
When you're feelin the grove
When you know you just can't tame it
Dance with all that you've got
When it's all that youre not
You will find that you just can't fake itIve got this nervous feeling
It's got that energy, the kind that moves me
We'll find the open skies that open up my eyes
Put off city lights, let the sun shine
Ooh, ooh, Im never ready, Im never ready for thisDance when you're feelin the move
When you're feelin the grove
When you know you just can't tame it
Dance with all that you've got
When it's all that youre not
You will find that you just can't fake itOne day we will be together
Standing in the sunshine
One day we will be together
Standing in the sunshineDance when you're feelin the move
When you're feelin the grove
When you know you just can't tame it
Dance with all that you've got
When it's all that youre not
You will find that you just can't fake itDance, yeah
Dance, yeah, alright
Dance, yeah
Dance, alright
