

Youth Knows No Pain (The Lost Sessions)

[Lykke Li](#)

Come laugh away who you are and get down
Who you are, who we are now you're found
To the sun or the bears and the guns
We taking all our vows with your frown Come on get down
Come on get down
Make a mess, make a bow
Come on get down
Come get down
Mighty youth, here and now
So come on honey cut yourself to pieces
Come on honey give yourself completely
And do it all although you can't believe it
Youth knows no pain
Youth knows no pain Come together and join the parade
And get back walk on lost in the trade
With the plants and the shimmering beats
With the wind in my hair, we are free Come on get down
Come get down
Make a mess, make a bow
Come on get down
Come get down
Mighty youth, here and now So come on honey cut yourself to pieces
Come on honey give yourself completely
And do it all although you can't believe it
Youth knows no pain
Youth knows no pain I said youth don't know
Youth knows no pain
I said youth don't know
Youth knows no pain So come on honey cut yourself to pieces
Come on honey give yourself completely
Come on honey cut yourself to pieces
Come on honey give yourself completely
And do it all although you can't believe it Youth knows no pain
Youth knows no pain
Youth knows no pain
