Sleigh Bells

If you're sure you'll be
Show me a way
That's it, come now
I saw it just once you said it
The one has run
If you start to learn how to rise
I can go that high
If you start to run out of words
Talk to me this timeThe thing you swore was wonderful
I felt the rise with bad lies
The thing you swore was wonderful
I felt the rise with bad lies[Chorus]
Never could've known if you ever go because
Say that you love and you'll never love
Never could've known if you ever go because
Say that you love and you'll never loveWhen their heads are turned don't say it
Not if you come down
Just a joke in the wind against all your family
When we teach a love
When you smile and you fell apart
I cannot fix that
That's your debt and you have to pay it
Just to have good funThe thing you swore was wonderful
I felt the rise with bad lies
The thing you swore was wonderful
I felt the rise with bad lies[Chorus]
Never could've known if you ever go because
Say that you love and you'll never love
Never could've known if you ever go because
Say that you love and you'll never loveAnd I could make him see
And I could make him see
And I could make him see
Until you're feeling alright
And I could make him see
And I could make him see
And I could make him see
Until you're feeling alright
And I could make him see
And I could make him see

And I could make him see
Until you're feeling alright
And I could make him see
And I could make him see
And I could make him see
