

# Hope Is So Far Away

## Eyeshine

(Verse 1)

Memories that fade,  
Colors that run,  
Shadows that fall upon us all,  
Imagine no more war,  
Something we all crave for.

(Chorus)

Oh, Hope's so far away,  
Yeah with this passing day we want it so much more,  
I can scream but will anyone listen,  
I can run but is anyone coming,  
Hope is close but it's still so distant,  
It's in our hands just to make it happen.

(Verse 2)

Trials that come,  
No one has won,  
Burdens that crawl upon us all,  
Get your self off of the floor,  
Something we all crave for.

(Chorus 2)

Oh, Hope's so far away,  
Yeah with this passing day we want it so much more,  
This is all that I can take,  
'Cause I am falling from nothing,  
I am falling from nothing,  
Bend more and I'll break,  
In two, In two.

(Chorus 3)

I can scream but will anyone listen,  
I can run but is anyone coming,  
Hope is close but it's still so distant,

It's in our hands to make it happen,

I can scream but will anyone listen,

I can run but is anyone coming,

Hope is close but it's still so distant,

It's in our hands to make it happen.

(End Line)

I can scream but will anyone listen,

I can run but is anyone coming,

Hope is close but it's still so distant,

It's our hand just to make it happen.
