## CENTERFOLD

## Nina

I'm on the rebound, I get it where I want to
I'm on the way down, I'm getting fixed without you
You gave me a band-aid, I put it on my heartbreak
And all you got is pictures in your handDon't you wish you could hold
The angel in the centerfold?

The fantasy you couldn't control

Who walked away from youDon't you wish that you could hold The pretty little paper doll?

The one you couldn't quite control

Who walked away from youFlip to me, I'm the centerfold

I'm gonna charm you all night

Stick to me, I'm the centerfold

We're gonna go, oh, hold tightI'm gonna hate you, 'til I forget you So here's a keepsake, I left it in the bathroom

Just a little something, something to remind you

The joy you'll never get this close againDon't you wish you could hold

The angel in the centerfold?

The fantasy you couldn't control

Who walked away from youDon't you wish that you could hold The pretty little paper doll?

The one you couldn't quite control

Who walked away from youFlip to me, I'm the centerfold

I'm gonna charm you all night

Stick to me, I'm the centerfold

We're gonna go, oh, hold tightFlip to me, I'm the centerfold

I'm gonna charm you all night

Stick to me, I'm the centerfold

We're gonna go, oh, hold tightNow, it's him but it could've been you Tell me why it's him, when it should've been you?

It's crazy how this makes you wanna changeHere's an image you won't forget All your life I'll tease, I'll torment

I'll be gone as soon as you turn the pageDon't you wish you could hold

The angel in the centerfold?

The fantasy you couldn't control

Who walked away from youDon't you wish that you could hold

The pretty little paper doll?

The one you couldn't quite control

Who walked away from youFlip to me, I'm the centerfold

I'm gonna charm you all night

Stick to me, I'm the centerfold We're gonna go, oh, hold tight
