

Pale Black Eye

Manchester Orchestra

Father, I plead in waves
So I don't need you like I used to
Fear and nostalgia say hey
I don't have it anymore
Whatever you want
Whatever you need
Bleed from me, right from me
Bleed from me
I don't have yours or mine
I don't hurt you like I used to
Maybe you must be tired
When you sleep, you sleep alone
And understand the throne
And if he didn't pay

What he had paid
I'd undeniably become erased
So whatever you want
Take whatever you need
And bite your veins
Bleed your pain into me, yeah
Goddamn, I'm tired of lying, oh
I wish I loved you like I used to
So hold on, you pale black eye, no
'Cause when I sleep, I sleep alone
So whatever you want
No, whatever you need
Take from me, right from me
From you
