Last Cigarette

Custom Kings

Regrets are all you left on your lipstick stains
Take a picture of our past there in that ashtray
We had our fun, I used to light your flame
Like the dancing smoke that rose we tried to find our way
No one told me, she told me
Your love's like one last cigarette, last cigarette
I will savor it, the last cigarette
Take it in and hold your breath
Hope it never ends but when it's gone, it's gone
The last cigarette
Just to breathe reminds me of what used to be
The smoke's the ghost that keeps you close when I can't sleep
Don't ask the past to last, it's about to change
The memories don't answer when I call your name
No one told me, she told me
Your love's like one last cigarette, last cigarette
I will savor it, the last cigarette
Take it in and hold your breath
Hope it never ends but when it's gone, it's gone
One last cigarette, last cigarette
One I can't forget, the last cigarette
Right there at my fingertips
Got your taste still on my lips, right or wrong

You're still gone, gone, gone, gone, gone, gone, gone
No one told me, she told me
You always lose the girl
In a Brian Wilson world
One last cigarette
I will savor it
Take it in and hold your breath
Hope it never ends but when it's gone, it's gone
One last cigarette, last cigarette
I will savor it, the last cigarette
Take it in and hold your breath
Hope it never ends but when it's gone, it's gone
The last cigarette, last cigarette
One I can't forget, the last cigarette
Right there at my fingertips

Got your taste still on my lips, right or wrong
The last cigarette
No one told me, she told me
(The last cigarette, the last cigarette)
The last cigarette
