

# Piggybank

KMFDM

Hopelessly retarded, spluttering decay  
Crying out the lament every night and everyday  
Hiding in the twilight, X-ray shades  
Suffering from constipation, tripping outer space I've been recoiled into stone age, covetous a dream  
Obnoxious and depraved, waking up in a scream  
Sleeping in the morgue, a [Incomprehensible] on me  
Think I lost my consciousness, left reality My inner circle's helter skelter, echoes lovin' ecstasy  
And I know I'll find a way to live, a way for you and me Totally addicted under detrimental spell  
If I had a shotgun, I'd blow myself to hell  
Let me be your piggybank for nothing but your smell  
And if I had a shotgun, I'd blow myself to hell Squalid and deranged, I'm the outlaw of the kin  
Will never be the same again, stuck in deadly sin  
I slouch along the street instead of struttin' down the block  
I still did not recover from that stunnin' cold shock My inner circle's helter skelter, echoes lovin' ecstasy  
And I know I'll find a way to live, a way for you and me Totally addicted under detrimental spell  
If I had a shotgun, I'd blow myself to hell  
Let me be your piggybank for nothing but your smell  
And if I had a shotgun, I'd blow myself to hell Let me be your piggybank  
Let me be your piggybank Away from phony people, besides the way of life  
I won't be blamed for loving you, I'll take you, be my life My inner circle's helter skelter, echoes lovin' ecstasy  
I know I'll find a way to live, a way for you and me Totally addicted under detrimental spell  
If I had a shotgun, I'd blow myself to hell  
Let me be your piggybank for nothing but your smell  
And if I had a shotgun, I'd blow myself to hell Let me be your piggybank  
Let me be your piggybank  
Let me be your piggybank  
Let me be your piggybank Let me be your piggybank  
Let me be your piggybank  
Let me be your piggybank  
Let me be your piggybank
