This Way to Happiness

Glenn Frey

Way outta town on some midnight highway
Headed nowhere, was just drivin' by myself
The night was cold, the wind was blowin'
Me, I felt like I was someone elseI was achin', I was alone
No destination, so far away from home
Suddenly I find myself callin' to the heavens above
Please send me someone to loveWhich way to happiness? Over the mountain
Which way to freedom? Just across the sea
Lord, I been searchin' for what seems like forever, now
Which way to happiness for someone like me?It seems like I spend my whole life runnin'
Runnin' away from what I couldn't be
Down some endless road just south of nowhere
Always movin' but never really freeI had a dream, I said a prayer
Just like the answer, you were standin' there
The neon sign that was fifteen stories tall
I could hear the angels callThis way to happiness, the train is leavin'
Over the mountain, headin' to sea
Highway to freedom is when you start believin'
This way to happiness, you and meI've rolled this rig from coast to coast
I've seen alot, I've done more than most
I was like a sailor lost at sea
When, like an angel from above, you came down and rescued meThis way to happiness, the train is leavin'
Over the mountain, headin' to sea
Highway to freedom is when you start believin'
This way to happiness, you and me
