

# Til He Comes Home

Olivia

(VERSE 1)

im in love with Americas most wanted dangerous thug  
wanna call him but my phones bugged  
and im wondering how long he'll be gone  
really want to see your face  
so meet me at a secret place  
I got a judge to fix this case  
don't worry you'll be home in a hurry

(CHORUS)

yo, my man left town on some serious business  
(what has he done, what has he done)  
D.A. even said they got a witness  
(now he's on the run, I don't even know)  
its hurting me so bad I don't think I can deal with it  
(should have used my gun, naw I aint goin' out like that)  
now i gotta be strong cause when hes out we still gon' be together  
(cause hes the only one, yeah thats my shawty aiight)  
now that hes gone and im all alone, now I pull my own  
gotta hold it down 'till he comes home  
now that hes gone and im all alone, now I pull my own  
gotta hold it down 'till he comes home

(RAP)

so do what cha doin'  
i'll send you some cash through western union  
police been askin', so boo stay true and  
I aint tell them nothing, about what you movin'

they aint find no cash or a stash box  
they found your number on the back of a match box  
so they got your phone bugged up, talk about tough love

(CHORUS)
