

Rumors

Sepultura

Loss for words, you lost respect
Food for thoughts, you're just a fool
Mind of the weak, will nonsense sayThe rumors will never die
The rumors are only lies
The rumors don't let you breathe
Talk is cheapGames of lies, just fucking lies
It's all wrong, you're full of shit
Nothing's straight, no
Low moves, low movesThe rumors will never die
The rumors are only lies
The rumors don't let you breathe
Talk is cheapThe rumors are only lies
The rumors are only lies
The rumors are only liesI thought I've said
I thought I've heard
I thought was right
It's never wrongI thought I've said
I thought I've heard
I thought was right
It's never wrongLet it be, just let it be
Never mind, just never mind
That's all you have, that's all you've got
Never say what you never willThe rumors will never die
The rumors are only lies
The rumors don't let you breathe
Talk is cheapNo
