

Just for Tonight (feat. Chris Brown)

Migos

Just for tonight, oh
Just for tonight, wooI want you
You want me just for tonight (only one night)
Just for tonight (just for tonight)
I want you baby
And you want me just for tonight
Only one night (just for tonight)
(One night, one night) yoLook at my charm and baby look at my arm (look at it)
You know you the bomb, I'mma call you Saddam (boom)
I don't need your phone number, you coming home
You don't really speak no English baby, where is you from?
Never mind that, hop up in my Coupe and let the top back
Just a night to remember, get your recorder and rewind that
I'm surrounded by bad bitches, baby you the finest
Don't worry about it, it just me and you on Quavo Island
First night, I was styling, I saw you smiling
When I leave the club on four door, I let you be pilot
When I get you to the room you know that I'mma dive in (splash)
On the first night, lil' mama going inI want you
You want me just for tonight (only one night)
Just for tonight (just for tonight)
I want you baby
And you want me just for tonight
Only one night (just for tonight)
(One night, one night) yoI want lil' mama, lil' mama said she want young Takeoff
Keep our jet, private jet taking all me to my lake house
Takeoff ain't no superman, ain't no need to bring that cape out
Givenchy my skin is, Versace my sheets when I lay down
I said don't touch what ain't yours, it don't belong to you
Taking a trip to go pick up the sack is what we known to do
Tried to wet up my Mulsanne but it was bulletproof
With them snipers, no binoculars, we looking for you
Got your bitch on my line, she keep calling me
Feel like my shadow when I'm walking, she keep stalking me
Feel like she work for AT&T, she keep texting me
Lil bitty bitch tryna get next to me
Rubbing all in my Jesus piece, tryna hit the weedI want you
You want me just for tonight (only one night)
Just for tonight (just for tonight)

I want you baby
And you want me just for tonight
Only one night (just for tonight)
(One night, one night) yo Just give me an hour, I'll be the water to your flower
I beat it, I'm killing it, make the pussy devour
Got me all in your walls, I'm tryna knock down the tower
I'm not really involved with buying gifts and the flowers
She see my diamond it dancing they globing into your water
Like top me off tried to kiss me, fuck that, and call her again, and she lost
It's only for one night 'cause I know that you not really worth it
If I text you tomorrow you gonna be asking for Birkin
Don't be involved in your feelings 'cause offset leaves bitches hurting
I got to use me a condom 'cause I don't want no more Gerber
I'm in the Maybach with curtains, she suck me up like a sherbert
We fucking these bitch with the lights on and we don't fuck under cover I want you
You want me just for tonight (only one night)
Just for tonight (just for tonight)
I want you baby
And you want me just for tonight
Only one night (just for tonight)
(One night, one night) yo
