Fly Me Away

Goldfrapp

Drifting out of time Something on your mind And I wanna be the One that you callWhen you get down No matter where you Are in the world I'll be aroundFly me away on an aeroplane High in the sky Wanna see you again Wanna know this timeGonna tell you what I'm feeling Gonna know this time Gonna get it back, that feelingMiles and miles of sun Endless roads, twist on Don't wanna live a life In a world that's all the same The crazy little things That you do are magicalThis crazy life This crazy world We're living in is Magical
