

Making Mistakes & Wasting Time

[Dave Thomas Junior](#)

Seeing rivers flowing seeing sunrise
Colours shifting at the speed of light
I can see you through it all And even though this isn't all that there is
I got you and all of our beginnings
And right there my fear is upped and gone I said that we're forever
Forever's what I mean
Cause there ain't nowhere else that I'd rather be
As long as we keep making mistakes and wasting time
I think you might be my crystal ball cause
Whenever you're around I can see it all
Laying out there clear as day And when the summer's over
You know where I will be
Cause no matter where I go my heart is here
Just tell me we'll keep making mistakes and wasting time And I hope
Hope we don't ever learn
And I hope
We'll go where the wind blows
I said that we're forever
Forever's what I mean
Cause there ain't nowhere else that rather be
As long as we keep making mistakes and wasting time
As long as we keep making mistakes and wasting time
