

Manhattan

Midtown

I can't believe anything
Every year it's the same
Chew me up
Spit me out again Oh, I've seen it all
Winter, summer, fall
I love you with my eyes
What's your name? I can't believe how I'm living
Lost in Manhattan
I don't know where to go
There's no where left to go I can't believe how I'm living
Lost in Manhattan
