

What You See

Fiji

Well, yeah, ah
Well, yeah, hmmm

I know, I know how it is
I?m just not that type of guy

Pardon me, miss if I?m not paying you no mind
I never meant to do it
I?m not cut out from the same cloth as them other guys
Baby, not to ruin

You?re attention is focused on something more
I can see it in your eyes
If this is meant to be, I?ll be down for sure
Just let the dark clouds pass you by

What you see is what you get
Take it or leave it
If you think you seen it all, you ain?t seen nothing yet
Best believe it
Just ask somebody if you don?t know
They will reveal it
If you ain?t ready, don?t come close
I will conceal it

It?s just another episode, episode

I know you?re used to shot-callers and ballers and big fancy cars
With the spoilers
And baby I?m not the kind of guy that likes to let others know
What I have inside

I?m just real and that?s all it is
Baby what you want to do? Tell me what?s the biz
Real gangstas keep it low and crisp
It is what it is
You better notice

(chorus)

It's just another episode, episode

It's just another episode, episode

Let me give you the ground rules if you're rolling with a man like me

You know say Fiji nuh easy

Complication comes with the territory, you better be by my side

Tragedy or glory

I'm looking for that specific kind of woman

A prototype woman

Not one who spends the nighttime roaming, hanging with her folks

Her reputation ruined

(chorus)

It's just another episode, episode

It's just another episode, episode

It's just another episode, episode

Another episode, episode ?.
