

All in All

America

I'm sailing down a river
Down a river in the dark
Looking for a giver
Waiting for a spark All in all it's been a good time
I know I can't complain
But just wish that I could find her
And maybe things would change
(change...) I've got her on my mind
And I can't help that
She's the one I am supposed to find
So I know where I'm at
Ohhh...
All in all, all in all, all in all it's been a good time
Now I need to fill
What is empty still
And then I will unwind
Ohhh....I'm taking to the mirror
The mirror in my car
I think I might be near her
I hope it's not too far All in all it's been a good time
I know I can't complain
Just wish that I could find her
And maybe things would change
(change...)
I've got her on my mind
And I can't help that
She's the one I am supposed to find
So I know where I'm at
Ohhh...All in all, all in all, all in all it's been a good time
Now I need to fill
What is empty still
And then I will unwind
Ohhh....Every moment has its meaning
Every journey has an end All in all it's been a good time
I know I can't complain
Just wish that I could find her
And maybe things would change
(change...) I've got her on my mind
And I can't help that

She's the one I am supposed to find
So I know where I'm at
Ohhh...All in all, all in all, all in all it's been a good time
All in all, all in all, all in all it's been a good time
All in all, all in all, all in all it's been a good time
