# Brave Love

## Kingsfoil

Maybe someday I will get it right, let honestly and kindness be the prize
Roll all the windows down, drive on roads we used to knowBrave love, brave love, I've heard it spoken
Brave Love, brave Love, Like a dream awoken
I only know it cause I've seen it on the faces of the ones I've brokenTell me that you need me, tell me everything that you feel,
I just wanna give it all to ya Leave my selfishness behind
Tell me how you see this going down, you're all I think about, I wanna hold you nowMaybe someday I will get it right, Give love like darkness gave light to the night
I went over the waterfall Tender, Love and Care never came...on
Never came onBrave love, brave love, I've heard it spoken
Brave Love, brave Love, Like a dream awoken
I only know it cause I've seen it on the faces of the ones I've brokenTell me that you need me, tell me everything that you feel,
I just wanna give it all to ya Leave my selfishness behind
Tell me how you see this going down, you're all I think about, I wanna hold you nowBrave love ohhhh
It's written all over your face loveBabe I'm just a sad lesson that you wish you could teach but you learned it from me yeah
Found out it's a mountain under water I'll be drowning when I reach my peak yeahTell me that you need me, tell me everything that you feel,
I just wanna give it all to you, Leave my selfishness behind
Tell me how you see this going down, you're all I think about, I wanna hold you now
