

# Brave Love

## Kingsfoil

Maybe someday I will get it right, let honestly and kindness be the prize  
Roll all the windows down, drive on roads we used to know  
Brave love, brave love, I've heard it spoken  
Brave Love, brave Love, Like a dream awoken  
I only know it cause I've seen it on the faces of the ones I've broken  
Tell me that you need me, tell me everything that you feel,  
I just wanna give it all to ya  
Leave my selfishness behind  
Tell me how you see this going down, you're all I think about, I wanna hold you now  
Maybe someday I will get it right, Give love like darkness gave light to the night  
I went over the waterfall  
Tender, Love and Care never came...on  
Never came on  
Brave love, brave love, I've heard it spoken  
Brave Love, brave Love, Like a dream awoken  
I only know it cause I've seen it on the faces of the ones I've broken  
Tell me that you need me, tell me everything that you feel,  
I just wanna give it all to ya  
Leave my selfishness behind  
Tell me how you see this going down, you're all I think about, I wanna hold you now  
Brave love ohhhh  
It's written all over your face  
Babe I'm just a sad lesson that you wish you could teach but you learned it  
from me yeah  
Found out it's a mountain under water  
I'll be drowning when I reach my peak yeah  
Tell me that you need me, tell me everything that you feel,  
I just wanna give it all to you, Leave my selfishness behind  
Tell me how you see this going down, you're all I think about, I wanna hold you now
