

Hellbender Turbulance

Lordi

So she got up in the morning
May, this day be the day of confidence
Consider it a fair warning
Gonna turn it on 10, the turbulence Oh lord, they tried to wear her down
Blinding is the sound Now tell me where have you seen her
Have you seen hellbender turbulence Now who's whhelin' and dealin'
May this day be the day of reckoning
Unconventional meanings
Give the devil his due for dirty things
