Johnny's Song

Cross Canadian Ragweed

what is life it could be a million
It could be a single dime
Or it could be a ship out on the water
But to me it's just more time
Time for the one who moved a hundred mountains
Time for the one who broke a thousand chains
For the love of a son and a mother
A little girl sweet as sugar caneWhat is love it could be a river
Love's a single drop of rain
But to her love is forever
It's the mention of your name
What is love there's more than just one answer
Love's a golden wedding ring
If only love could be the cure for cancer
Then the world would hear you singWhat is faith
Faith is believing
Faith can tell you where to go
You say faith can move a thousand mountains
Faith can liberate your soul
A heart of gold will take you to the rafters
Where you get your angel wings
Don't cry for me are the words that are coming
From your golden guitar stringsWhat is life
It could be a million
What is love
There's more than just one answer
What is faith
Faith is believing
