Guillotine

Urbandub

What's done is done
And we've crossed the line
Your indecision is taking over every time
Your pride, my anger
Our situation is worse than ever
We've taken this too far
We've had our run
With your arms wrapped tight
Around my neck
Close my eyes I sink and grasp for breath
She's with someone new.

All hope is gone
And since you're never gonna change
I'll erase your taste and let you go slowly
Suddenly I wasn't enough
Your lust disguised as love.

You're pushing me too far
We've had our run
With your arms wrapped tight
Around my neck
Close my eyes I sink and grasp for breath.

She's with someone new.

This whole time with me
Was just another lie
Threw my feelings up and down
You're just a little inconsiderate.
