

# Flying V

## Nicholas Tremulis Orchestra

### Flying V

If you're standing underneath it, you will see when you inspect it  
That a flying V is made of flying geese  
The pointed end flies in the lead  
So when it flies, it's hard to read  
You've got to tip your head to see  
Flying V, flying V

### It's a V

In the window of a music store or on stage at a rock show  
Now a flying V is made of a guitar  
The pointed end flies in the lead  
So when it flies, it's hard to read  
You have to be upside-down to see it
