

# Everybody Wants You

## Save Me Hollywood

Take it easy, what he told me  
My head is spinning round and around  
Heart in throat, my feet above the ground  
You come with me, never leave me  
We're driving long the coast  
And I'm rolling with the sound And how how, now now  
Make up for so much loss  
It's alright, I'm here with you  
How how, now now All the wild ones, where we come from  
We were ignoring all the signs  
Overlapping lines and borrowed time  
Life is free young and easy  
My bones they shake under my skin  
Heart in throat my hands touch the wind I could be the one to make it all okay  
I could be the one you choose to love someday Give me one, give me two, give me all of you  
Give me one, give me two, give me all of you  
Everybody wants you, yeah everybody wants to know  
Everybody wants you, yeah everybody wants to know So dance dance dance it's a quarter to midnight  
Run run run till we see the sun  
Dance dance dance it's a quarter to midnight  
Run run run till we see the sun Give me one, give me two, give me all of you  
Give me one, give me two, give me all of you  
Everybody wants you, yeah everybody wants to know  
Everybody wants you, yeah everybody wants to know
