# We Know

## Pitchshifter

Advisory - the following lyrics contain explicit language:

They gotta brush you aside
Make up the time
Stick to the scene
Make the masses so clean
We know
They gotta tell you who's right
Tell me I'm wrong
Two puppets, one hand
And a heart-felt song
We know, we know, we know, we know
'Cause we've been down this road before
If the word is broken
Will it bring you down
Yeah we've been down this road before
When the world is choking
Will it bring you down
Yeah we've been down this road before
Will it bring you
It's eyes front
In a nation of disinformation
Right from the start
Keep us all in the dark
We know, we know, we know, we know
We jumped ship
On the savior of modern behavior
Swallowed the blame
Make us always the same
We know, we know, we know, we know
'Cause we've been down this road before
If the word is broken
Will it bring you down
Yeah we've been down this road before

When the world is choking
Will it bring you down
Yeah we've been down this road before
Will it bring you
Tell me I'm right, tell me I'm wrong
Stick to the scene
Make the masses so clean
'Cause we've been down this road before
If the word is broken
Will it bring you down
Yeah we've been down this road before
When the world is choking
Will it bring you down
Yeah we've been down this road before
Will it bring you
