Lil Secret

Mr. Sancho

We can keep it on the low
Nobody else has to know
No, No
It's our little secret
We can keep it on the low
Nobody else has to know
Its our little secret
Its our little secret
Its ours

I'm livin this playa life
You love me more cuz I'm hittin it right
Cuz I'm your little secret
I hope that you'll keep it

There's no need for questions
No need for confessions
All you need is to show me your sexual imitations
I'm not your man
But you can call me daddy
You wanna keep me for yourself
But baby you cant have me
Baby you need a secret thug in your life
Someone like me

A true playa, livin up to the hype (yeah)
You can call me when your husbands gone at work
I give it to you
When I'm gone it hurts
But you're my little secret
Nobody has to know
I said it before
Just keep it on the low pro
I'm your little secret
I hope that you'll keep it

We can keep it on the low
Nobody else has to know
Oh no
You can see me in the streets

And never let no feelings show
No cuz its our little secret
And I'm bout to keep it
Love it when you bring it
Keep on coming back for more

Hit me up when you make it to the hot spot
Low Pro thats how I roll
You know whats up ma
When your mans gone
I'm puttin in work
Ya ever see a chick try to walk when it hurts
Thats you when I'm thru
What I like about you
We dont talk much
We just keep it cool
So when we see eachother
Act like you dont know me
I like it that way ma
Me as a secret homie
Our little secret
The way we love to keep it
I'll hit you up whenevr I feel like hittin it
In the bathroom, or in my bedroom
Whever you like it ma
Its all up to you
Pouring all over your body
True blue alazey
Gettin you all wet
Today is a good day
By the way
When the nights done
I'll hit you up
Dont call me cuz I dont wanna get caught up

We can keep it on the low
Nobody else has to know
Oh no
You can see me in the streets
And never let no feelings show
No cuz its our little secret
And I'm bout to keep it
Love it when you bring it
Keep on coming back for more

No I wont tell nobody
No I wont tell nobody
No I wont tell nobody
No I wont tell nobody
Its our little secret

I like the way you do this girl
The way you play in this playa world
Cuz you're my little secret
I hope that you keep it
You're my little secret
The way you like to keep it
The temptations are irresistible
Keep it a secret
And you'll be my secret girl
Theres no one like you in this whole wide world

We can keep it on the low
Nobody else has to know
No no
You can see me in the streets
And never let no feelings show
No cuz its our little secret
And I'm bound to keep it
Love it when you bring it
Keep on coming back for more

No I wont tell nobody
No I wont tell nobody
No I wont tell nobody
No I wont tell nobody
No I wont tell nobody
