

# That's What She Said (Dubstep Remix)

## The Friday Night Boys

In her room the lights go out  
I wonder if she'll just let this go now  
Just lock the door and fall back down  
Her body shakes so nervously  
Take my hand and let's just leave this party  
I see her eyes all over me tonight  
I'll walk you home  
What would it take to let you go?  
In your eyes, just give me a sign  
She's so scene, Hollywood dreams  
Broken 'cause she's no good at anything  
Run around and around, make up your mind  
I bet you strike out with her tonight  
She'll look at you and swear she's true  
What will moving to California do?  
I know for sure she's lost her way  
You'll be wrapped around her finger too  
She's a little too much and a little too good for you  
Hang on to every word she says but never again  
I'll walk you home  
What would it take to let you go?  
In your eyes, give me a sign  
She's so scene, Hollywood dreams  
Broken 'cause she's no good at anything  
Run around and around, make up your mind  
I bet you strike out with her tonight  
You can't deny  
You can never catch her in a lie  
If she brings you in her room and you close the door  
You'll be right where every guy has gone before  
You can't deny  
You can never catch her in a lie  
If she brings you in her room and you close the door  
You'll be right where every guy has gone before  
She's so scene, Hollywood dreams  
Broken 'cause she's no good at anything  
Run around and around, make up your mind  
She's so scene, Hollywood dreams  
Broken 'cause she's no good at anything  
Run around and around, make up your mind  
I bet you strike out with her tonight  
She's so scene, Hollywood dreams  
Broken 'cause she's no good at anything  
Run around and around, make up your mind  
I bet you strike out with her tonight  
I bet you strike out with her tonight  
I bet you strike out with her tonight
