Kiss

Ashraf

I love the way...
You loose yourself in a kiss,
The way your body moves,
The taste of your lips
Ohh how you sooth my soul with your finger tips
I love the way I loose myself in your kiss

Eyes closed
Passion raging
Deep breaths
Oh oh oh
I can feel your heart racing
Eyes closed
Passion raging
Deep breaths
Oh oh
I can set your heart racing
Ohh you know it's true I love the way

Come on, come on, come on now!
Just give it to me one more time!
Come on, come on, come on now!
Ohh you know it's true

I love the way...
You loose yourself in a kiss
The way your body moves
The taste of your lips
Oh how you sooth my soul with your fingertips
I love the way I loose myself in your kiss

Hands clenched
And in desire
Deep breaths
Oh oh oh
I can set your lips on fire
Hands clenched
And in desire
Deep breaths
Oh oh

I can taste your lips on fire
Oh you know it's true I love the way...

Come on, come on, come on now!
Just give it to me one more time!
Come on, come on, come on now!
Ohh you know it's true

I love the way...

People all around us
Staring at us
Getting jealous
Yeah!
And we don't care!
Bodies start to quiver
Feel the shiver
It's a fever
Yeah!
And it's everywhere!
Caught up in the moment
Here enjoyment
Can you feel it now?
All over again

Girl you know...
I love the way...
You loose yourself in a kiss
The way your body moves
The taste of your lips
Oh I assume my soul with your fingertips
I love the way you loose myself in your kiss

I love the way you just loose yourself girl
The way your body moves
The taste of your lips, girl
And how you sooth my soul with your fingertips
I love the way
I love the way...
I loose
