Abandon Ship

Gallows

Mayday, mayday
The captain's lost control again
The fucking ship is breaking up
We're going down in flamesMayday, mayday
Man overboard again
The sharks have started circling
They only eat the braveThe SS Death lost everything
No one here can fucking swim
So baby, baby hold me tight
While I drown myself in you tonight
While I drown myself in youMayday, mayday
The ship has hit the rocks again
This isn't going to fucking work
We're heading to our gravesMayday, mayday
Man overboard again
We're sinking in the river sticks
No one can escapeThe SS Death lost everything
No one here can fucking swim
So baby, baby hold me tight
While I drown myself in you tonight
While I drown myself in youWhile I drown myself in you tonight
While I drown myself in youLadies and gentlemen
May I have your attention please
This is the captain of your ship
I'm sorry we depart this way
You left me brokenheartedBut I never loved you anyway
No, I never loved you anyway
No, I never loved you anyway
No, I never loved you anyway
