

# Boomerang

## Plain White T's

The fire was out but then the phone rang  
And all of the heat came back again  
As much as I try, you're hard to resist  
All that it takes is just one kissAnd I'm putty in your hands  
I'm under your spell  
You send me spinningYou pull me in close, you throw me away  
I keep coming back like a boomerang  
You tell me to go, you beg me to stay  
I keep coming back like a boomerangRound and round and round and back again  
Round and round and round and back againYou're treating me like I'm your little toy  
You tell me I'm not like other boys  
The next thing I know, you toss me aside  
You don't even bother with goodbyesBut when you say hello  
I can't ignore you  
You send me spinningYou pull me in close, you throw me away  
I keep coming back like a boomerang  
You tell me to go, you beg me to stay  
I keep coming back like a boomerangRound and round and round and back again  
Round and round and round and back again  
Round and round and round and back againBoom, boom, boom  
And now my heart is racing  
Boom, boom, boom  
And after you I'm chasingBoom, boom, boom  
You got to catch me when I fall  
You send me spinningYou pull me in close, you throw me away  
I keep coming back like a boomerang  
You tell me to go, you beg me to stay  
I keep coming back like a boomerangRound and round and round and back again  
Round and round and round and back again  
Round and round and round and back again  
Round and round and round and back again
