Altered State

Teddy Thompson

So far things have been all right
No complaints, oh, this is the good life
But sometimes I need more
Just to get up and out the doorI like to live in an altered state
It makes me love all the things I hate
And I'm happy to be alive
Don't want to come off too straight
I like to put on my happy face
While I cry on the insideIs it so hard to be happy?
That I struggle to feel just okay
And I need a lift just to get through
Just to get up to normal with youI like to live in an altered state
It makes me love all the things I hate
And I'm happy to be alive
Don't want to come off too straight laced
I like to put on my happy face
While I cry on the insideYeah, sometimes I need more
Just to get up off the floorI like to live in an altered state
It makes me love the things I hate
And I'm happy to be alive
Don't want to come off too straight laced
I like to put on my happy face
While I cry on the inside
