LoveÂ´s Dance

Earth, Wind & Fire

Ooh, baby... like a melody ride
Baby it's time, it's fun, fun timeJust take your time, to free your mind
It's bonafide, to move your body
Natural high, can you feel the vibe
Get on the rise, move your hips from side to sideLet's enjoy, life's reward
We can soar, through heaven's door
Touch the sun, let's become one rhythm
Cause the way your energy is affecting me, yeahOoh, I wanna party with you (I wanna boogie down)
Diggin' on the way that you move
Dancin' in love's groove (I sure do)
Close to you (I sure do baby)Ooh, I wanna party with you
Diggin' everything that you do
Dancin' in love's groove (I sure do)
Close to you (I sure do baby)Gone get, get, get, get on down
Gone get, get, get, get on down
Gone get, get, get, get on down
Gone get, get, get, get on downGirl the mood is right
For me to be with you tonight
So let's get intertwined, let's flyLove is in the air
Baby nothin' else is better
Cause we're the perfect pairWe're one of millions of lovers
And feelin' love is sent from above(Dance) Show me if you feel it, dance
(Dance) Come on do it with me, dance
(Dance) Make romance, let's dance
