

# What If I Said

## Human Nature

Well I heard about the someone you've been seeing  
And it's everything you dreamed that it could be  
There's a battle in my head  
And I'm wondering just how to say things right  
I've been a friend so long  
This feeling can't be wrong, it's the truth I tried to hide

Chorus

What if I said I loved you?  
What if that's all that I could say? (oh)  
What if I said I'd hold you  
And give you all you needed  
Would you love me then or let me walk away?  
If only you could tell what I've been thinking  
And know the questions heavy on my mind  
Can a friend become a lover?  
Can a man who kept the honest truth inside  
Be too late for you?  
Cause I know this much is true,

You're the meaning in my life

Chorus

(walk away) tell my I was wrong to try it  
(if you stay) tell me you've been holding on  
Just tell me that your waiting (for me)

Chorus

What if I said...  
(what if I said that I love you)  
What if that's all that I could say  
(what if I said I loved you baby)  
What if I said I'd hold you  
(what if I said that I love you)  
And give you all you needed  
Would you love me then or let me walk away  
It's all that i...  
All that I can say
