## Rape Me

## **Nirvana**

Rape me, rape me my friend

Rape me, rape me again

I'm not the only one

I'm not the only one

I'm not the only one

I'm not the only oneHate me

Do it and do it again

Waste me

Rape me, my friend

I'm not the only one

I'm not the only one

I'm not the only one

I'm not the only oneMy favorite inside source

I'll kiss your open sores

Appreciate your concern

You're gonna stink and burnRape me, rape me my friend

Rape me, rape me again

I'm not the only one

I'm not the only one

I'm not the only one

I'm not the only oneRape me (rape me)

Rape me
