

# Nobody's Perfect

Chris Brown

You are natural sweet not just beautiful  
Cause you follow your heart  
It makes even more special that you don't know how damn lovely you are  
I would kiss a mirror every single day  
If I wake up with your face  
What are all these doubts for spinning in your head  
Don't you look so sad Won't you come right here  
Set the mind off you  
Nobody nobody nobody's perfect but you yeah  
You mean the world to me  
I cant believe youre true  
Cause nobody nobody nobodys perfect but you [beat break] Nobody nobody, nobody nobody  
Nobody nobody, nobody nobody  
Nobody nobody, nobodys perfect but you When you stand close to me I get paralyzed  
I forget how to breath  
Every place is forsaken and feels so wrong  
Every time that you leave  
You catch me when im falling  
You bring me back to life  
When im dying you rise  
Now, what are all these doubts for spinning in your head  
Don't you look so sad Won't you come right here  
Set the mind off you  
Nobody nobody nobody's perfect but you yeah  
You mean the world to me  
I cant believe youre true  
Cause nobody nobody nobodys perfect but you [beat break] Nobody nobody, nobody nobody  
Nobody nobody, nobody nobody  
Nobody nobody, nobodys perfect but you Yeah You mean the world to me  
Nobody nobody, nobodys perfect but you Won't you come right here  
Set the mind off you  
Nobody nobody nobody's perfect but you yeah  
You mean the world to me  
I cant believe youre true  
Cause nobody nobody nobodys perfect but you
