

# Round & Round & Round (Re-Recorded)

## Gary's Gang

And as the circus came to town,  
I'd sit and watch the clown spinning round and round in circles  
And as a circle never ends, neither does my love  
for you,  
Can't you make my dream come true,  
Cause it goes; Round and round and round inside my head the thought of loving you,  
The walls in my room echo with your laughter, and it goes  
Round and round and round inside my head like it was yesterday,  
The way we were, the things you use to say, My wheel of fortune knows the cure, it's the girl that I adore,  
She can make my heart beat stronger,  
And as I ride the carousel, I'll dream about you girl,  
And tonight we'll slip away:  
Cause it goes; Round and round and round inside my head the thought of loving you,  
I can't be here alone tonight without you, and it goes,  
Round and round and round inside my head like it was yesterday,  
The way we were, the things you use to say;  
And it goes Round and round and round inside my head,  
This song of love to you it's endless cause of love song lasts forever,  
And it goes Round and round and round inside my head, this dream of you and me,  
The way we'll be, the things you'll say to me!
