

# Like a Child

## Oketo

Young as smoke that slips away  
Just let me find my innocence, Desire to be a child again  
Retrace reason, simple thinking, I know we will find the meaning  
Memory is not in season this is just a time for bleeding  
Your best at Cheating on yourself, Go to HellWaste me I'm a child, Weary idle wild  
Dull this Drunken Dream  
Widows will see shadows, weeping with the willows  
Closing off my King  
You are dust, Just waiting to rustWere all sleeping children caught in lifeless forms of living  
Your eyes won't leave the screen, just deleted by the scenes  
Losing me, Needing you, Filling the void that was found in you  
Just Love me like you used to  
Putting on a face we found on our feet, words from our fingers will never complete  
Limiting letting it linger and loosen  
Patience is Pennies Pendulum PixelsLike a Child Like a Child You will always be a child  
Dull this Drunken DreamJust have fun in your hell don't you rust in that cell  
You are just a memory nowNow you see how I burnDon't you be scared to learn
